## Tile Collections

Nicholls & Clarke  
— Est 1875 —

### Exceptional Warranties

Why choose any less than the best quality products. At N&C, we are so confident in our quality that we offer exceptional warranties across our range.

### Exclusive Collections

Did you know? We are one of the leading national tile distributors within the UK with an extensive portfolio of exclusive collections that you won't find anywhere else in the UK!

### Tile Guarantee

Who else offers you a lifetime guarantee on your new wall & floor tile purchases? Simply fix your tiles using Nicobond, our trusted, British manufactured tiling brand to enable your lifetime guarantee\*\*

### Sample Service

Sometimes, the best way to experience the beauty of our tiles is in person. If you can't visit us in one of our showrooms, simply request a sample and we'll deliver it to your home or office!

SPECTACULAR HOMES by CHROMA

THE ALLURE OF BEAUTY

Welcome to the latest edition of your tile collections catalogue, where you will find an abundance of tile inspiration, trends and ideas for your next tile project.

We pride ourselves in curating collections that continue to impress, and with designs that have timeless appeal. We continue to seek out and anticipate future interior trends, ensuring that we meet the design aspirations that adhere to the tastes and direction of fashion. Our colour palette has been influenced by bringing together the insight and knowledge of leading colour specialists and collaborators within interiors.

Sit back, relax and enjoy the browse!

# Trend talk

Mark Cooper, our N&C Tile Expert with over 30 years experience. We caught up with Mark to get his view on how to begin your next interior project

**Mark Cooper | N&C Tile Expert**

With a finger on the pulse when it comes to anticipating trends, we are happy to be presenting an array of exciting new tile collections.

From the earth inspired tones that are capturing a warmer palette, to the more nature inspired designs utilising greens and blue tones that continue to make their way into our homes.

When embarking on your design journey, creating a mood board as a starting point helps to pull together the elements you need to consider. Add samples of floor tiles, wall tiles, door options, handles, furniture samples and other elements.

**What do we need to consider when selecting tiles for our next project?**

As industry insiders with years of experience, we've witnessed the evolution of trends first-hand and advocate for a more nuanced approach - one that prioritises the needs and preferences of the end user, making it personal. Whilst trend forecasts offer valuable insights into emerging styles and colour palettes, they offer food for thought as a starting point rather than the final decision.

**So, what factors should consumers keep in mind when embarking on their tile selection journey?**

First and foremost, it's essential to establish a personal connection with the space. Whether it's a kitchen renovation, a bathroom makeover, or a complete home overhaul, the tiles chosen should reflect the unique personality and lifestyle of the homeowner.

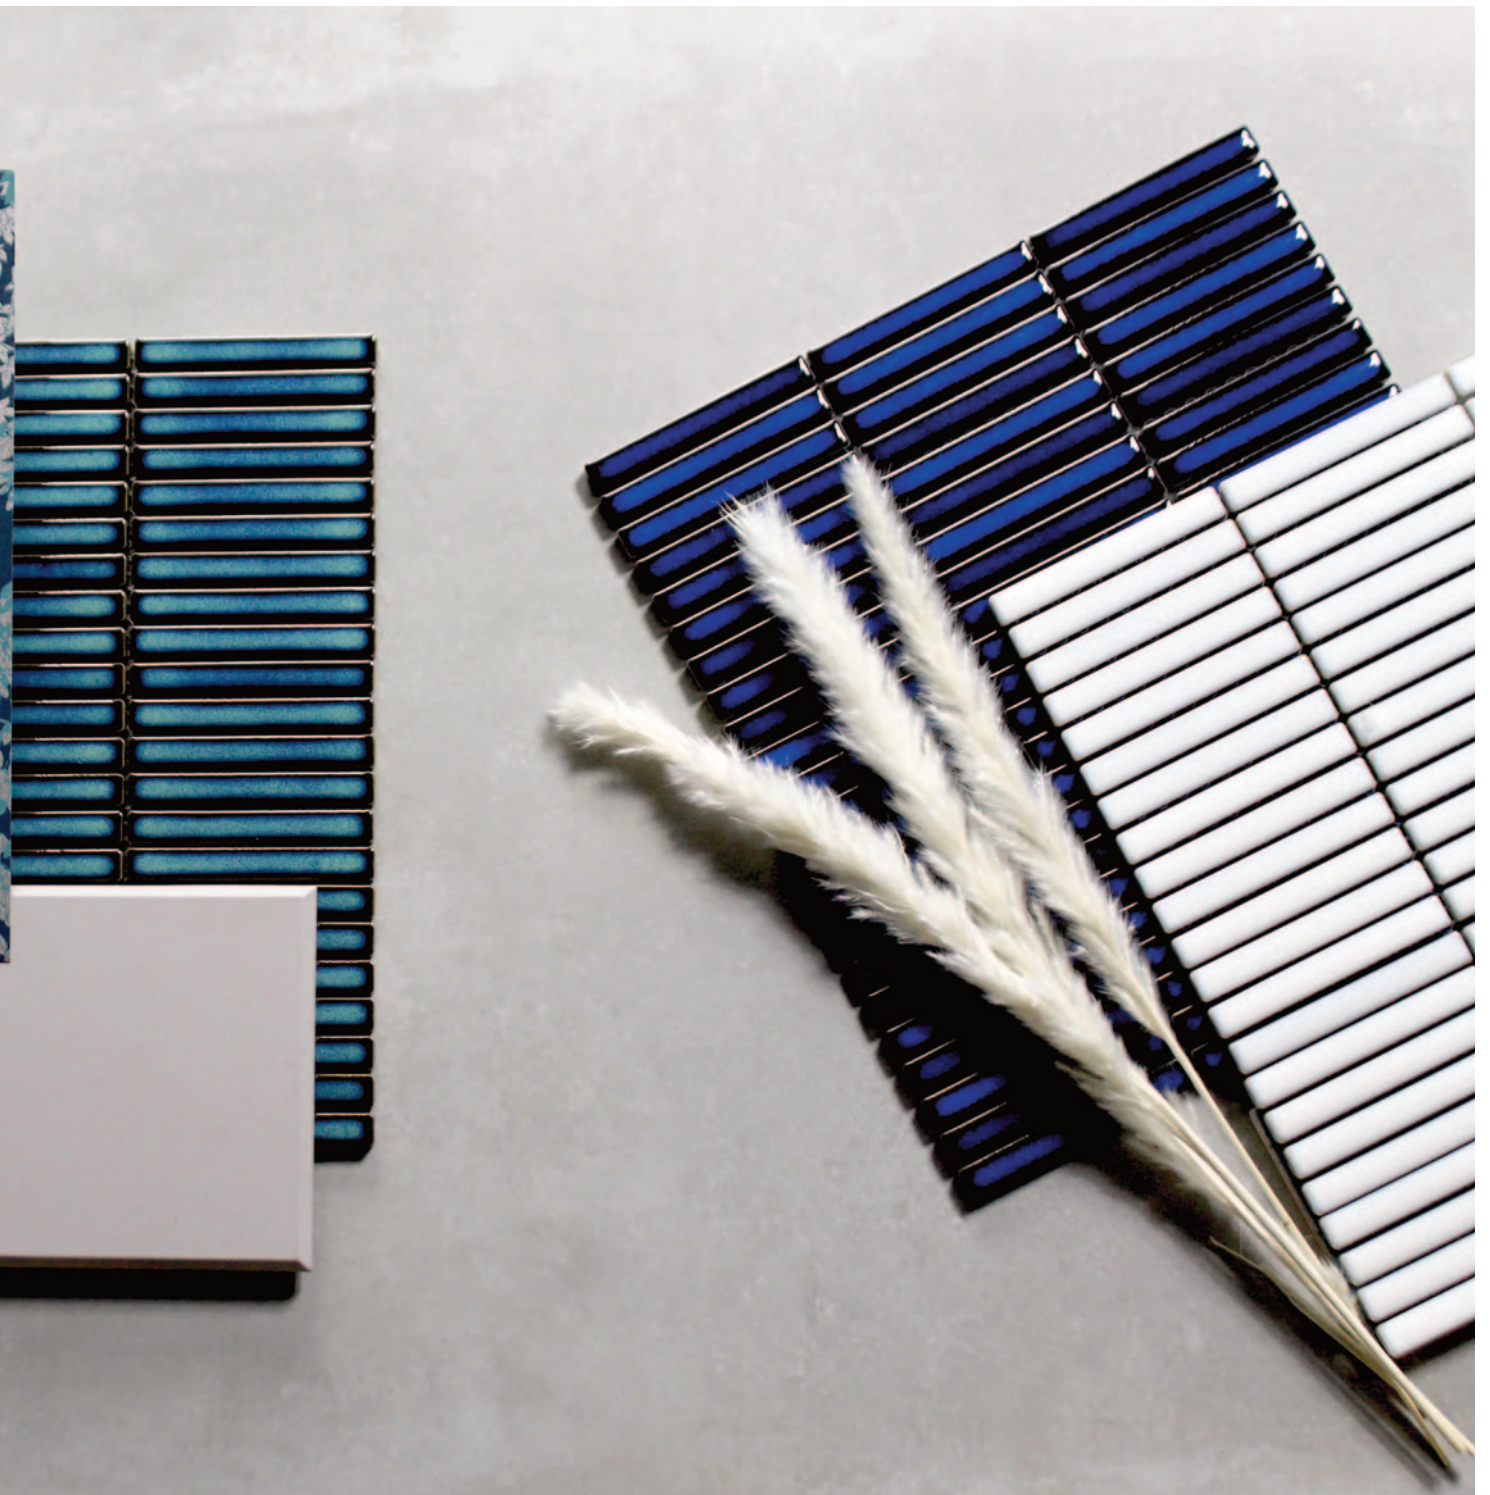

*“When embarking on an interior project, build a connection with the space by understanding its intentions”*

Practical considerations should not be overlooked. While aesthetics play a significant role in material selection, functionality is equally important. Assess the specific needs of the space that build up the design. Include soft furnishings, decor ideas and inspiring art. Don't be afraid to mix and match styles to create a truly unique aesthetic.

Experiment with different textures, shapes, and finishes to add visual interest and depth to your design. Incorporating contrasting elements can inject personality and character into your space, elevating it from ordinary to extraordinary.

N&C Orpington showroom

N&C Swansea showroom

Unless you are working to a strict design specification already, you will no doubt be seeking inspiration. We've not only designed our catalogue on this notion, but our showrooms too.

Our multi-award winning showrooms showcase endless inspiration, with over 50 room sets in most locations. For those that want to be led on design, it is the perfect method for choosing your next bathroom or interior project.

Simply make an appointment or pop in when it suits.

# Backstage Beauty

In her new, North London studio, influencer, entrepreneur, brand ambassador and TV presenter, Melly Sophia (@mellysophiamua) prepares to launch her first ever dream make up studio. With the help of N&C, we share Melly's transformation journey.

Melly was taken back by the visual aesthetics of N&C's tile collection (and mirrors), selecting Italian Onyx as her final choice.

With nearly 400,000 Instagram followers (and counting), Melly Sophia's make-up portfolio showcases a diverse range of styles, from bridal elegance to high-fashion editorial looks. Her work has been featured in leading beauty publications and graced the faces of celebrities, models, and influencers alike.

Having built up an impressive career over 15 years, Melly wanted to fulfil her lifelong dream of having her own studio, but it had to be done right. With a keen eye for colour, texture, and composition, Melly wanted to recreate an experience that was not only welcoming and unique, but transported her clients on a journey as part of their overall experience.

"You end up building good relationships with clients, you almost become a mentor and a place for women to unload". There is an element of wellbeing at play, where I love the fact that clients walk out of my studio feeling confident, beautiful and are literally glowing."

Melly was seeking a design that was pretty, soft and offered a luxurious feel. "I wanted the room to come to life." Italian Onyx by N&C was no doubt the perfect tile for the project.

The impressive N&C Italian Onyx Collection offered a luxury polished tile in an extra large format size with multi dimensional detailing that adds character and charm to any interior setting. Also available in a natural finish and five colours, the collection was a firm favourite.

“ I asked for a luxury tile and knew as soon as I saw N&C Italian Onyx Collection that it was the one ”

Watch the full video by Melly Sophia

We caught up with Melly Sophia and asked her some questions about her experience sourcing the right products.

**How did N&C help you source the right product?**

The guys at N&C truly were tile experts, I really didn't know what tile design I wanted, but when I described the look I was after, they pulled out exactly what I wanted. I even picked up a beautiful, round LED mirror from them.

**How did you go about selecting the tiles?**

I think it's really important to see the tiles, I went to the N&C showroom and there is no way I would've had the same effect or experience had I purchased it elsewhere online as I originally set out to do.

**Tell me about the selection you got shown?**

When I asked for a luxury tile, I got shown so many different options. They really paired the products well, I love Italian Onyx for my studio the moment I saw it. I loved the way the light reflected off it, there is so much depth and detailing, I love it! I get a lot of lovely comments about the tile when people enter the studio.

# Trend Alert: Bird House

The Bird House trend represents our shift towards more muted, softer colours to reflect our need for tranquility and well-being, with a more serene, environment, carefully curated through our nature inspired elements.

The enchanting trend adopts neutrals, alongside botanical influences incorporating tones of greens and blues to bring interiors spaces to life. The injection of blush adds a more inviting, soft touch for home interiors.

The trend is an evolution of the botanical trend, suggesting that nature continues to be an enchanting source of inspiration for designers.

*Botanicals continue to dominate the interior market*

# Trend Alert: Foraging

The emphasis on foraging and handcrafted materials evokes a sense of connection to nature and a return to simplicity. Muted earth tones often create a calming and grounded atmosphere, while the addition of colours like Turmeric and Coal adds depth and intrigue.

Foraging is a trend that embraces both the raw beauty of the natural world and the artistry of human craftsmanship.

*Scaled back and unprocessed,  
foraging utilises warm earth tones*

# Trend Alert: Tribal Soul

Our yearning for deep rooted affection and a sense of belonging derives from climate anxiety and our need for a deeper connection with the earth and nature. We are seeing a greater shift towards eco-spirituality, folklore and ancient practices to reaffirm our culture and identity.

This trend is translated through traditional, unprocessed materials formed from artisan crafts, defined by imperfect flatness and tonal variations. The palette is unsurprisingly made up of a huge variations of warm, neutral earth tones with lashings of vivid colours found in the living world.

*Inspired by our deep connection with Earth*

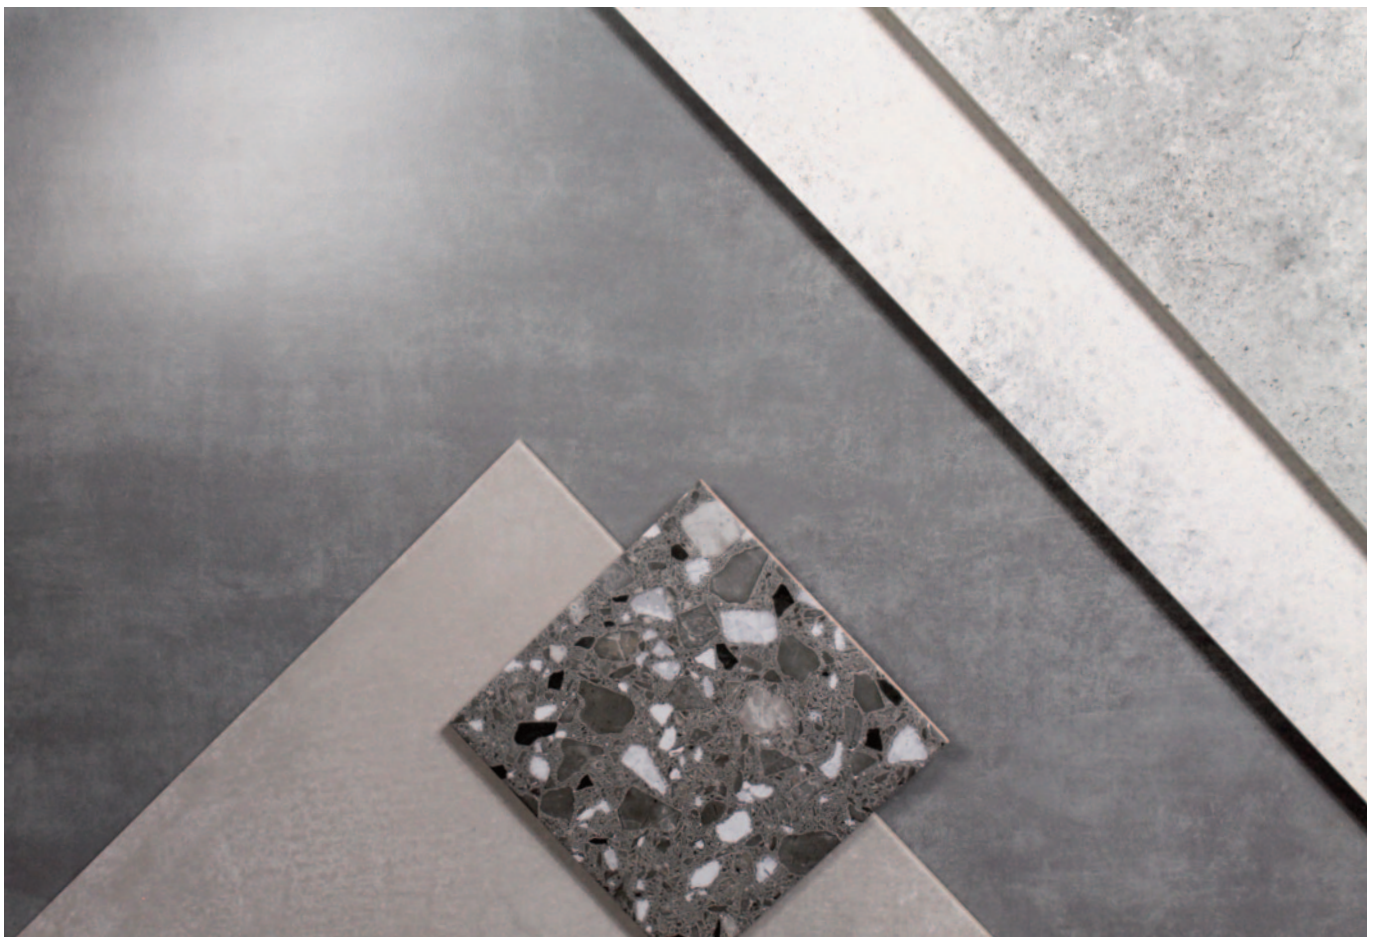

# Trend Alert: Shadow Play

A warmer take on the traditionally featureless palette of greyscales, the new gradients are better designed for comfort. Utilising the mono palette, Shadow Play forms soft textures and whispers of shapes, adding soft definition.

Opposing the industrial trend, Shadow play takes on a more gentle approach, evolved to be welcomed into the home. The tones sit centred within the outer extremities of the harsh black and white combo to offer a more inviting palette.

*A scheme that is neither too cold, nor too harsh*

## Stone Collection

Invite the beauty of the natural world into your interior project.  
As a material, the aesthetics of stone reflects an understated luxury  
with a sense of warm and a connection to the world.

# Fossil

Inspired by aged stone, Fossil ignites character.

# Outdoor Porcelain Paving

## Why choose Outdoor Porcelain Paving?

The N&C porcelain paving collection features Alfresco, a series of co-ordinating 10mm indoor and 20mm outdoor porcelain tiles to seamlessly connect indoor and outdoor spaces, as well as our outdoor only 20mm porcelain.

## Terracotta Collection

Terracotta has been for centuries been used as a material for creating potteries and other useful products. Today, the trend for terracotta has increased in our homes as we blur the lines between the outdoors and our interiors. Terracotta is warm, inviting and is packed with character and charm.

# Tuscan Flagstones - Cotto

The rich colour and rustic effect created by the latest technology combine to create a beautiful impression aged flagstone.

*Perfect for achieving  
a farmhouse chic*

93x93	NB19085	TP - A06

Design ideas showing the versatility using Donard red panels with Gosford borders and corners.

Mesh mounted modular panels with predetermined grout lines reduce installation times and fitting costs.

Manufactured from full body porcelain tiles that are highly durable, scratch and stain resistant for indoor and outdoor applications and do not require sealing.

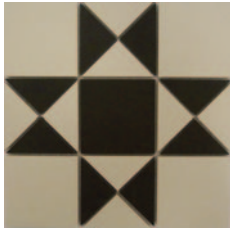

Geometric designs are highly slip resistant and suitable for all commercial and high footfall areas.

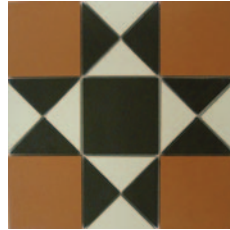

*If you need help with your project using our Victorian Porcelain we offer a Design Service*

*If you need help with  
your project using our  
Victorian Porcelain?*

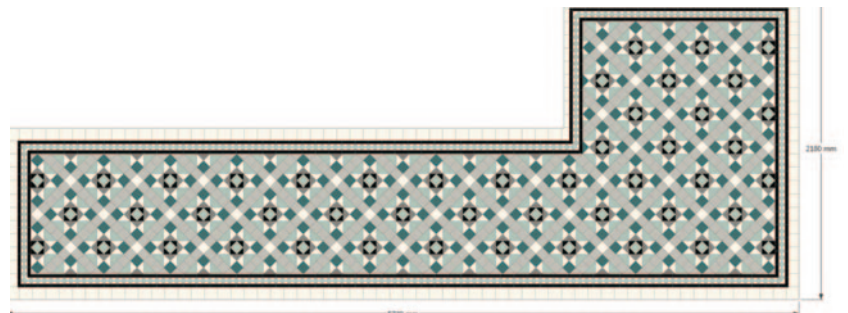

### Design Service available:

Bring in a sketch of your required design with dimensions (it doesn't have to be a work of art) and we will send onto our design team to plan your floor.

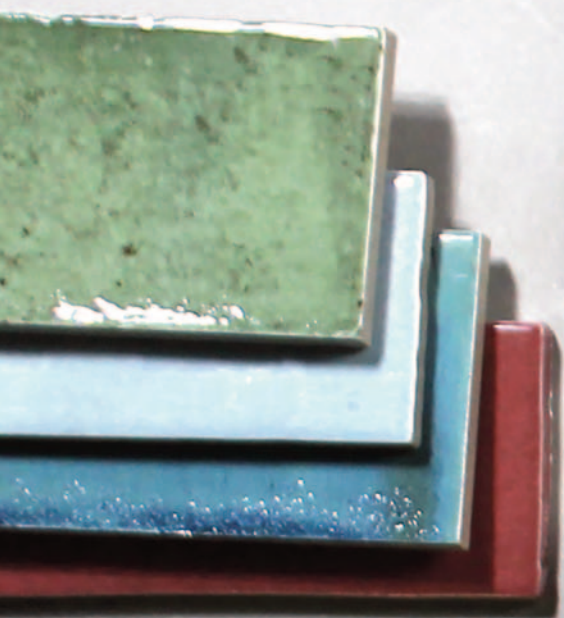

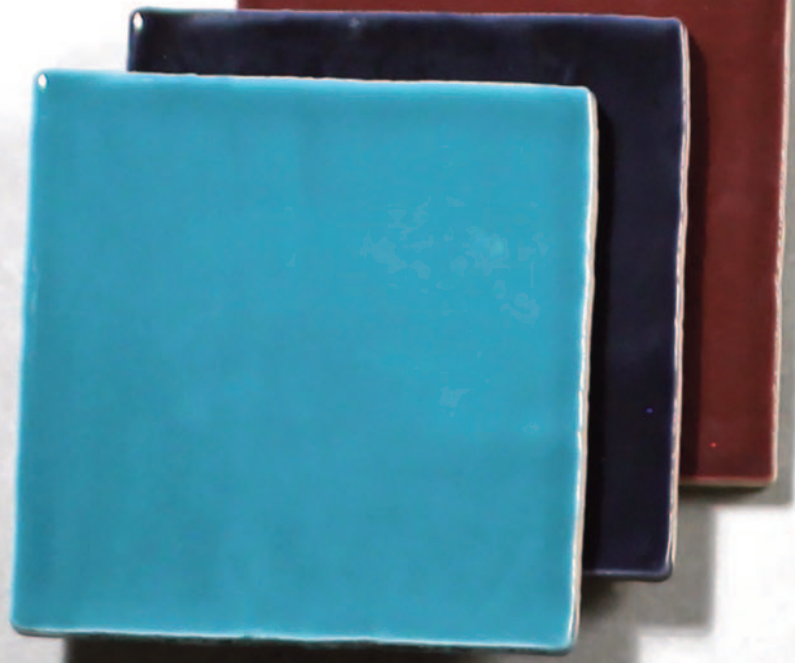

Designs are available free of charge, usually within 48-72 hours.

Designs show 2D and 3D visuals to help determine the right design for your space.

Our team will invite you back instore to discuss your design, answer any questions and place your order.

## Small Format Collection

From handmade artisan effects to more exotic designs, our collection of small format tiles have the versatility of being open to diverse installation approaches.

Symphony Sapphire Blue Crackle Gloss

# Developing Your Collection: Modular sizing

We have developed the N&C ikon Plain Colour Tile Collection to incorporate modular sizing formats for uniform installations of standard sizes.

Our most common modular sizes for wall tiles are 100mm x 100mm, 150mm x 150mm, 200mm x 200mm, 300mm x 100mm and 200 x 100mm.

These sizes are often used to create a repeating pattern or design on a wall, and are easy to install because they fit together seamlessly with the grout joint thickness taken into consideration.

# Cement Collection

A reinterpretation of engineered material, our cement inspired collection offers an aesthetic look that is completely versatile with endless design opportunities.

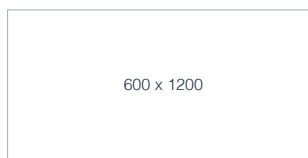

Garda Mid Grey

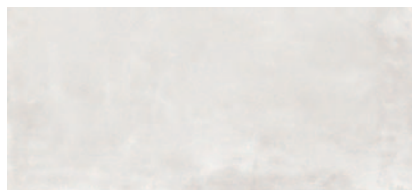

# Garda

An exclusive collection of concrete-effect porcelain stoneware, in neutral tones.

# LIFETIME GUARANTEE

Who else offers you a lifetime guarantee on your new wall & floor tile purchases? Simply fix your tiles using Nicobond, our trusted, British manufactured tiling brand to enable your lifetime guarantee.

\*\*Proof of purchase required. Any claims will be subject to investigation. Conditions apply. See instore for more details.

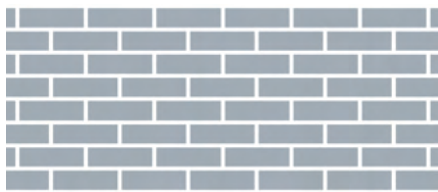

## Buy with Confidence

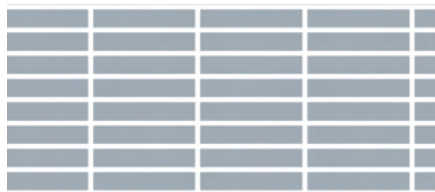

Who else offers you up to a lifetime warranty on your new tile and bathroom purchases? Our products are made with the best quality materials and manufacturing, so we are happy to offer the best warranties around to give you confidence and peace of mind. Why choose any less than the best quality products?

## Patterns make perfect

The layout of your chosen tile can drastically change the overall appearance of your room. Here are some common installation types:

Brick Layout

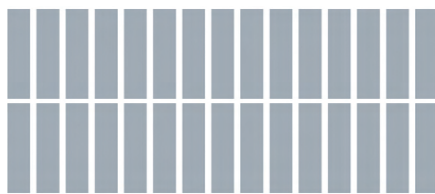

Stacked Layout

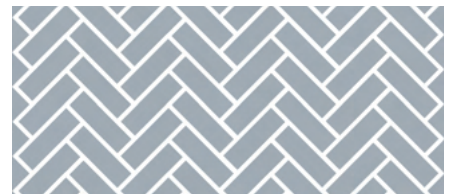

Basket Weave Layout

Vertical Brick Layout

Stacked Vertical Layout

Herringbone Layout

## Colour Shade Variation Grading

The variation of colour, texture, and tone between individual ceramic tiles is referred to as 'colour shade variation'. Variation in colour and shade is an inherent characteristic of any fired product and can actually enhance the character and beauty of the project. Shade variation is inherent in all tile products, including man-made tiles. Shade texture will vary from piece to piece within production runs are therefore given a variation (V) rating.

### Uniform Appearance:

Minimal to no difference among pieces from the same production run.

### Slight Variation:

Distinguishable differences in texture and/or pattern within similar colours.

### Moderate Variation:

The amount of colours on each piece may vary significantly.

### Substantial Variation:

Random colour variation from tile to tile.

The colours shown within this brochure are as the limitations of the printing process will allow. Please refer to actual product samples before purchasing.

\*Customers are invited to request a full copy of our terms and conditions of trade before they purchase goods from the Nicholls & Clarke Group. Every effort has been made to ensure the accuracy of the information given in this booklet. The Nicholls & Clarke Group reserve the right to change specifications and availability without prior notice. The colours shown within this booklet are as the limitations of the printing process will allow. All prices correct at time of going to print and we reserve the right to amend any price shown. Price will be deemed correct at time of despatch.
